Vpon the 28 of December, Coronell Neale chief Generall for the Rebels, having renewed his forces two dayes before, marched from the *North weſt parts* to the County of *Coanoham*, and there cauſed the drums to beat vp throughout his whole Army, to call his officers and ſouldiers together, who when they were gathered togethe, and ſet Warlike manner, he then ſpake to them to this effect.

the noble Earle of Wormouth caused a value
all shot to be made against them, which the re-
bels answered againe most furiously; then the
two Hosts marched about with their Army, striv-
ing for the wind which at last they obtained,
and for the space of two days and one night they
fought most furiously one against th'other; not
ceasing all this while to take breath, the conque-
ring sword hanging over their heads, not know-
ing to which side the victory would fall too, till
that noble and valiant souldier Captain Kembe,
came with his forces which were 1000. foot and
200. horse, who played against them with such
courage, that he caused them to retire back. then
the Lord *Blaney* caused his Ordnances to be
planted against them, who killed them so fast,
with Chain-shot, that in the space of three hours
were slaine on the rebels 2000. and three great
Commanders taken prisoners, in all were slaine
of the rebels 6000, of the protestants foureteene
hundred.

The Earle of Wormouth hath also took again
the Castle which belonged to Captaine *Hall*,
which the rebels took Decemb. 1. 1641.

Then the protestant Army marched backe to
the province of *Munster*, where they expect ano-
ther battell daily.

They have also won a great part of the Coun-
ty of *Connoham*, which the Rebels took at the

be-

beginning of their rebellion, then the protestant party marched towards the Covnty of Corke, and tooke the great Castle called Irelands Succour and killed of the rebels 200, and took great store of Ammunition from them, that came from *Spaine two dayes before*, and now at this present, they have entrenched themselves about it, expecting every day the comming of the rebels to assault them.
